

ACCEPTING RESUMES FOR:

Structural Designer/Drafter

Overview of Duties

- Function as a Structural Designer/Drafter, model and prepare detail drawings for the construction and repair of marine craft and floating structures such as ships, barges, and tugs.
- Use computer assisted design/drafting equipment and software for 3D modeling of ship structure.
- Create and develop production/fabrication drawings of the structure and netting of parts (i.e. assembly drawings, stiffener plots and nests).
- Responsible for drawing multiple views of the structure, through assemblies and sub-assemblies, depicting relationship of components and parts.
- Identify dimensions, angles, curvatures, and materials in the production drawings.
- May require drafting drawings/sketches in 2D for production.
- Regular attendance at work and the ability to work flexible hours, including overtime, weekends, and holidays.

Qualifications

- U.S. Citizenship or Permanent Resident Card required.
- Associate degree in Drafting, Engineering Technology or similar field of study, plus five years drafting/design experience preferable in the Marine (Structural) field desired. An equivalent combination of education and experience may be considered.
- Proficiency in FORAN (preferred) or similar software such as AVEVA, NUPAS CADMATIC, ShipConstructor or similar CAD/CAM software required. On-the-job training may be provided in FORAN for those with experience in the other listed software.
- Strong working experience with AutoCAD (2D) and reading/interpreting structural drawings required.
- Intermediate level Microsoft Word, Excel, and Outlook experience required.
- Ability to read, analyze, and interpret, professional journals, technical procedures, or governmental regulations.
- Ability to solve practical problems and deal with a variety of variables in situations where only limited standardization exists.
- Ability to work in a fast-paced environment, display an attention for detail, and function as a team player.
